

Noble • SPIRITS •

Dear valued Manager,

We would be very happy if you would consider carrying some of Noble Sprits products in your outlet – they are Fairtrade certified and made using only organic sustainable farming methods.

We have a range of FAIR spirits that are made with high quality ingredients, gluten free and chemical free! We are confident your customers would enjoy it!

FAIR Vodka: A new generation of Vodka already acknowledged by many awards. Made with organic quinoa from Bolivia our vodka is distilled only once, thus its unique and authentic flavour is preserved.

FAIR Rum: The first aged Fairtrade rum in the World. Produced in Belize from molasses and bottled in France after aging for 5 years in American oak barrels, FAIR rum offers a complex aromatic structure that received unanimous acclaim from international press.

FAIR Café: Exhibiting the nature, flavour and authenticity of the original organic Arabica bean our liqueur offers intense aroma with only 90g of sugar per litre.

FAIR Goji: Made from the legendary sacred Goji berries from the Himalayas, this liqueur offers ripe notes of cranberry, cherry and plum. Rich in taste and low in sugar, FAIR Goji gives cocktails a modern but authentic touch.
